

CHILD PROTECTION, ADULT PROTECTION AND SAFEGUARDING POLICY

September 2017

Child Protection, Adult Protection and Safeguarding Policy

INTRODUCTION

Radius Trust is committed to providing outstanding educational opportunities for all our pupils and students. The safety and welfare of our pupils and students is of the utmost importance. All adults working in Radius Trust settings must protect children and vulnerable adults from abuse and be aware that any pupil or student may be abused or at risk of abuse.

This policy supplements the London Safeguarding Children Board's London Child Protection Procedures (revised March 2017). The policy and procedure are regularly reviewed to ensure that updates to relevant guidance are reflected and enacted across Radius Trust. This policy and procedure incorporates changes to Government guidance, notably 'Keeping Children Safe in Education' (2016), as well as the Safeguarding Vulnerable Groups Act (2006), Working Together to Safeguard Children (revised February 2017) and Children Missing Education (2016). Furthermore it is written with reference to the Every Child Matters document, the Care Act (2014), the Ofsted guidance document 'Inspecting Safeguarding in Maintained Schools and Academies' (2016), the Ofsted Handbook and the Department of Education advice document 'What to do if you're worried a child is being abused' (2015), as well as the Home Office documents Channel Duty Guidance (2015) and PREVENT Duty Guidance (2015).

This policy provides a statement of intent and general guidance with respect to Radius Trust's approach to safeguarding. Each Radius setting has a specific Safeguarding Procedure which sits alongside and should be read in conjunction with this policy.

DEFINITIONS

Radius Trust adheres to the definition of safeguarding given in Keeping Children Safe in Education (2016), along with the duty that it implies:

"Safeguarding and promoting the welfare of children is defined for the purposes of this guidance as: protecting children from maltreatment; preventing impairment of children's health or development; ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and taking action to enable all children to have the best outcomes."

Child protection relates to any child (under 18) who has suffered from, or may be at risk of physical injury, neglect, emotional abuse or sexual abuse.

Safeguarding relates to children, young people and vulnerable adults and means protecting their health, wellbeing and human rights, and enabling them to live free from

harm, abuse and neglect, including protecting children and young people who are vulnerable or at risk of being radicalised.

Safeguarding, as above, applies to the daily duty/policy we adhere to in order to keep children and vulnerable adults safe.

Child or adult protection is given when there is risk or evidence of significant harm.

- Having clear procedures for reporting and responding to allegations and concerns about abuse.
- Working co-operatively with other agencies.
- Operating a Safeguarding Team to ensure decisions concerning complicated and sensitive issues are arrived at through informed discussion, whilst respecting confidentiality.

- Operating a policy of safe recruitment in accordance with the Every Child Matters document *Safeguarding Children and Safer Recruitment in Education* (2007)
- Carrying out enhanced Disclosure and Barring Service (DBS) checks for all employees, agency staff and volunteers and maintaining an internal DBS Single Central Record at each setting.
- Operating a comprehensive range of generic and personalised individual pupil/student risk assessments to ensure pupils and students are safe whilst at Radius Trust provisions or undertaking related activities within work placements and the community.

- Operating a Relationships and Sex Education policy alongside an RSE curriculum appropriate to each provision in order to support pupils and students to develop their understanding of how to keep themselves and others safe in relationships and sexual situations.
- Having regard to the DfE guidance document 'Children Missing Education' (2016) and operating suitable reporting procedures accordingly. All children, regardless of their circumstances, are entitled to a full time education which is suitable to their age, ability, aptitude and any special educational needs they may have. Local authorities have a duty to establish, as far as it is possible to do so, the identity of children of compulsory school age who are missing education in their area. A child going missing from education is a potential

indicator of abuse or neglect. Radius Trust staff should follow their school's procedures for dealing with children that go missing from education, particularly on repeat occasions, to help identify the risk of abuse and neglect, including sexual exploitation, and to help prevent the risks of their going missing in future.

- Observing Local Authorities' Child Sexual Exploitation Strategy. The Statutory definition of Child Sexual Exploitation is given below.

Child sexual exploitation is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology.

- Having regard to Deprivation of Liberty, which is a safeguard for people who lack capacity to make decisions regarding their own safety. Each Radius Trust school provides a safe environment for the diverse needs of all its pupils and students, ensuring the safety and due liberty of them all as individuals. Radius Trust staff ensure that pupil/student choice and best interest is considered at all times and that decisions being made suit the needs of the pupil or student to which they pertain.
